ABOUT

Eray Furniture is a young and dynamic company producing modules furniture in 20000 m2 closed 10.000 m2 working area. The product portfolio includes bedroom and dining room groups that we commonly use in our homes. As a manufacturer company, we plan our future with our business partners. We meticulously evaluate the suggestions of our customers and convert positive results in a short time.

Our product design centre, which is integrated into industrial production, is the basis of our philosophy of combining wooden details with modular production technology in its successful r&d studies 365 days a year.

The fact that our products serve you for many years is due to the importance we attach to durability. When in-product usage areas are combined with design and functionality, we see the indescribable happiness of living with them.

“Every design has a story, the important thing is how it makes you feel.”
